Investment Philosophy

Now is the time to back up and support the founders building the next generation of embedded finance, Insurtech, and payment infrastructure. We invest in fundamental financial infrastructure that underpins revenue generation across consumers, SMEs, and businesses.

Our Mission is Clear-Cut:

1. **Building the infrastructure** to support fintech innovators as we flush out the junk and install the new plumbing for modern financial systems
2. **Open New Markets for SMEs**, providing them with services that only large institutions had access to before
3. **Push for Regulatory synchronization**, allowing us to build the financial infrastructure that stands the test of time.

Fund Structure

Silk Road Ventures is structured in a Limited Partnership Model

Gunpowder Fund

Fund Size: \$ 30

million USD

Portfolio: 10-12

firms

Estimated

Investment size:

\$50k-\$2 million

Target Stage: Pre-seed to Series A

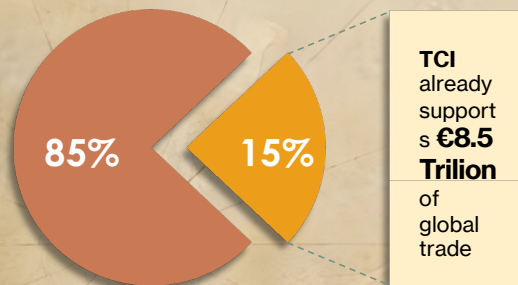

Target Markets

Trade Credit Insurance

Insurance products that protect business when customers fail to pay their invoices, particularly useful for B2B Trade

1. Growing Use of TCI for Supply-Chain Resilience
2. Digitization & Data Driven Credit Risk Solutions, leading to a \$11.7 billion dollar market
3. Convergence of Surety & TCI into Flexible Digital Guarantees

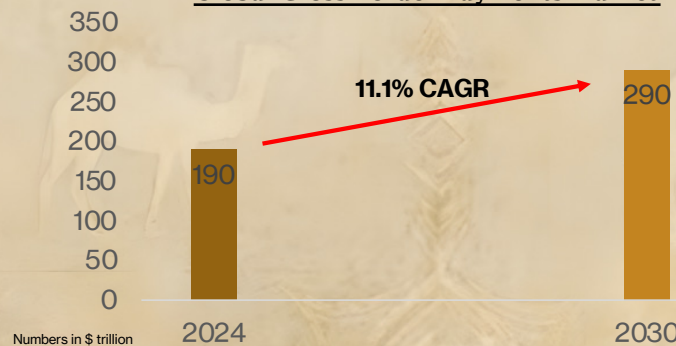

Cross-Border Payments

Insurance products that protect business when customers fail to pay their invoices, particularly useful for B2B Trade

1. Rise of Stablecoins for B2B Settlement
2. Expansion of global remote work, 26% of global workforce is now remote
3. B2B Transactions make up 72.6% of total cross-border payment value

Global Cross Border Payments Market

Working Capital Financing

Short-term funding that helps a business cover its day-to-day expenses

1. Persistent Global MSME Financing Gap
2. Shifts away from traditional debt toward revenue linked finance
3. Growth of embedded finance solutions

\$5.7T

Unmet financing gap in developing countries, mostly linked to short term working capital needs

62.6%

Of SME invoices were paid late in 2025, in the UK

Portfolio Companies

 **Bondaval**

Bondaval

A fintech providing digital credit guarantees and trade credit insurance, enabling suppliers to protect against buyers non payments.

Secure and Highly Scalable

Secured global partnership with Swiss Re Corporate Solutions, one of the biggest insurance carriers in the DACH region

 **Mesta**

Mesta

A next-generation cross border payments and treasury platform using fiat and stablecoin rails to deliver faster, cheaper and automated B2B international payments

Fast and Global

Processed more than \$140 million in total payment volume within first 11 months of launch

 **Receive**

Receive

A financial access platform that gives SMEs real-time access to earned revenue, solving serious cash flow gaps by unlocking receivables.

Instant and Empowering

Launched its business Mastercard through a commercial partnership with Titanium Payments

Competitive Advantage

Portfolio Company	Market Type	Vertical
Mesta	Infrastructure	B2B Cross-Border Payments & Stablecoin Rails
Receive	Embedded Finance	SME Working Capital/Earned Revenue Access
Bondaval	Insurtech/Risk	Trade Credit Insurance & Digital Guarantees

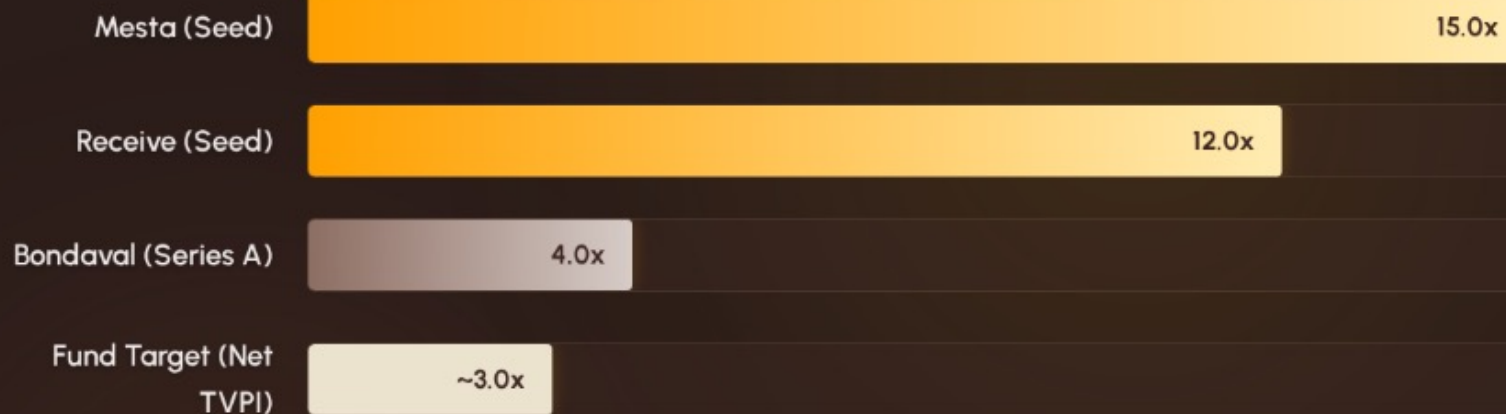

Firm	Speed	Cost	Regulation	Stablecoin Native	API-first
Mesta	Ultra-fast	Low	Regulated	Yes	Yes
Wise	Fast	Low	Regulated	No	Yes
SWIFT	Slow	High	Regulated	No	No

Firm	Interest-Free	Embedded	Real-Time	Credit Required
Receive	Yes	Yes	Yes	No
Fundbox	No	Yes	Yes	Yes
Banks	No	No	No	Yes

Firm	Collateral-Free	Digital	Insurance Backed	SME-Friendly
Bondaval	Yes	Yes	Swiss Re	Yes
Allianz Trade (Formerly Euler Hermes)	No	Partial	Yes	No
Bank LOC	No	No	No	No

Expected Returns from Portfolio Companies

Our portfolio employs a **Barbell Strategy**. Mesta and Receive act as our "Fund Returners" with high-alpha potential (12x-15x), while Bondaval provides stability with a solid 4.0x return profile.

Expected Multiples from Portfolio Companies

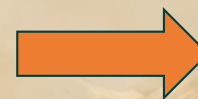

Asset	Entry Valuation (Anchor)	Target Exit Value (PV)	Exit Revenue Multiple
Mesta B2B Payments/Infra	\$27.5M	\$450M	9.0x Revenue
Receive SMB Liquidity/Embedded	\$20.0M	\$240M	8.0x - 12.0x Revenue
Bondaval Insurtech/Digital Guarantee	\$75.0M	\$220M	10.0x Revenue
Portfolio Avg	\$40.8M	\$303M	10.0x (Blended)

Fund Returns to Limited Partners

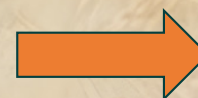

Returns	Weight	MOIC
Loss	25%	0.0x
Weak	30%	1.2x
Good	30%	4.0x
Outliers	15%	30.0x

Net MOIC

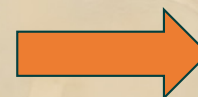

3.42x

Target DPI

2.22x

Net IRR

22.7%

Fund Risks

Category	Risk	Likelihood	Mitigation	Impact
Financial	Follow-on Funding Risk	Medium	Reserve additional capital for follow-up investments	Low
	Overpricing Risk	Medium	Multi-valuation method approach	Medium
Operational	Weak founding teams	Medium	Thorough due diligence	Low
	Weak product-market fit	Medium	CTO-led technical due diligence	Low
Commercial	Market Volatility in fintech	High	Portfolio Diversification	Medium
	Early-stage failure rate	High	Founder support and Monte Carlo Simulations	High
Regulatory	Regulation Changes	Medium	Regulatory Sandboxing and Geographic Diversification	Medium

EXIT STRATEGIES

IPO: Public market listing to access institutional capital

Strategic Buyer Acquisition: Sale to a bank or credit institution/fintech

Secondary sale to another fund: Selling our stake to another VC/PE fund without requiring a full company exit

Merger with another fintech: Combining with another start-up to increase scale

Management Buy-out: Management team buys our stake which is funded by lenders or new investors

A historical map of the Silk Road, showing the trade routes connecting the Mediterranean Sea to the Indian Ocean. The map is drawn on aged, yellowed parchment. Red lines trace the Silk Road routes across the Middle East, Central Asia, and China. Various cities and regions are labeled in Latin script, including Constantinople, Carthago, Egyptus, Karasnu, Asia, Xi'an, and Mana. Small illustrations of camels and riders are scattered along the routes. A white rectangular box is superimposed over the center of the map, containing the text 'THANK YOU' and 'Q&A'.

THANK YOU

Q&A
